

## **Toombs County Development Authority Awards Work Ready Scholarships**

The Toombs County Development Authority realizes the importance of Toombs County achieving the Georgia Work Ready County status. Every certificate attained is added proof that Toombs County has the talented workforce to fill current and future job demands. Therefore, the Authority was pleased to offer a scholarship opportunity in 2011 to area high school seniors in an effort to encourage them to become Work Ready.

A Work Ready certificate verifies that an individual has work readiness skills required by potential employers. The certificate ranks an individual above other job applicants that lack a certificate. The Toombs County Development Authority recently awarded Vidalia High School senior Alexis Atkins, Toombs County High School seniors Jacob Jay & Carl Ryan Davis and Robert Toombs Christian Academy senior Marvin Cooper Orrel, IV, with scholarships for attaining their Georgia Work Ready Certificates.
