## [2022-2023 Universal Service Fund \(USF\) Survey for Natural Gas](#) [1]

On 03 May, 2022

The Toombs County Development Authority and Greater Vidalia® Chamber are working with local companies, economic development officials, and Atlanta Gas Light (AGL) to evaluate natural gas infrastructure needs throughout the region. If your company uses natural gas in daily operations, please complete the survey. Your response will be used to assist the community in preparing for future growth and development!

A message from AGL...

Gaslight is a leading provider of natural gas service in the Southeast. We are currently working with the Georgia Public Service Commission to develop a plan for the future of natural gas service in the state. We are looking for your input to help us create a comprehensive plan for the future of natural gas service in the state. Light is asking for your help.

Please complete our online survey providing us with information about projects you plan to begin between 2021 and 2023. Please remember to provide as much information as possible for each of your projects. If you have more than five projects planned that you'd like to share with us, please complete a second survey.

The deadline to complete the survey is June 30.

For all projects submitted through this survey, we will contact you to apply for funding or support for a project that includes a specific project. Please also note that this survey is a preliminary application for natural gas service. A separate application for service can be found at [atlantagaslight.com](http://atlantagaslight.com).

Click [here](#) [2] to learn more and complete the survey.
