[STC JobLink](#) [1]

On 05 Jan, 2017

Southeastern Technical College (STC) has a new way for employers to connect with students and graduates! It's called STC JobLink. This web based system will allow an employer to manage all of their recruitment needs with STC. Employers can request campus visits, post job openings, have a company presence with STC and its students, receive resumes from students/graduates, etc. They are able to totally manage their information within the system. The system itself, is very user friendly and easy to maneuver through. This service is totally free to the employer and there is no limit to job postings. Employers or HR reps can gain access to the system through our STC website. The system will be rolled out the students/graduates on January 17th, but you can go ahead and set up your company profile and job postings.
