Industries [1]

A NATURAL SELECTION for All Industries

The Toombs County business climate alone makes us a world-class location for a wide variety of business types, both large & established as well as growing, entrepreneurial businesses. Toombs County possesses the qualities that corporate decision-makers and start up businesses are seeking in today's global environment.

Our focus is best adapted to those industries that can take the greatest advantage of our premium central location and proximity to local markets:

- Manufacturing
- Logistics, Warehousing & Transport
- Technology
- Value Added Agriculture
- Aerospace

Forward thinking companies seeking high productivity, central location, global market access and lower operating cost will find Toombs County to their liking. In addition, relocating and expanding businesses will find even greater benefit in Toombs County as many of the supporting services and workforce training programs are already here.
