A CONSENSUS DIGITAL MEDIA EVENT

SOUTHERN SURGE NEXT GENERATION MANUFACTURING SUMMIT

PLEASE JOIN US!

Thursday, July 13, 2023 | Georgia Freight Depot Atlanta, GA

About

The South is leading the nation in announcements of new production facilities for electric vehicles, solar panels, wind turbines, batteries and microchips. Our region is also rich in the natural resources critical to these cutting-edge technologies. Through this investment in next-generation manufacturing, thousands of well-paying jobs are being created.

This event will bring together political leaders, industry executives, economic development officials and local stakeholders for a one-day event to reflect on the Southern Surge.

Agenda

Through our carefully crafted program, the individuals responsible for the explosion of production jobs and wealth creation will consider how we successfully implement these monumental projects, and how we attract more. The event will include five sessions:

- Recruiting and Investing in Southern Workforces
- Building Infrastructure to Support Growth
- Attracting Investors to Our Communities
- Repeal the Battery Act
- Strategic View for the South: Building for the Long Term

Who is Attending

- Sonny Perdue, University System of Georgia Chancellor
- Steve Gooch, Georgia Senate Majority Leader
- and more from across the region
- Tricia Pridemore, Georgia Public Service Commission Chairman
- Chris Clark, President and CEO Georgia Chamber of Commerce

Census

Census Digital, founded in 2020, is a Washington, DC-based media company producing uplifting content focused on building a more sustainable future. It tells stories of innovation from people and organizations doing good across the nation.

Census operates six websites, produces two products, and is the creator of a handful of online video series, including *Made in America*.
