Memorial Health Meadows Hospital

Toombs County is the home of Memorial Health Meadows Hospital, a 57-bed DNV-GL accredited facility providing acute and long-term care. Our medical center is on the leading edge of healthcare technology, but rooted deeply in the southern traditions of family and caring. You'll find advanced technology, board-certified physicians, a state-of-the-art wellness center and compassionate care. It's all you'd expect at any hospital with the added benefit of being close to home.

In 2013, Memorial Health Meadows Hospital opened The Tommy and Shirley Strickland Cancer Center. Our cancer center brings the latest in chemotherapy and radiation technology to South Georgia so area residents can get the best possible treatments close to home.

Memorial Health Meadows Hospital is one of the primary reasons why Toombs County was recognized as one of six 2017 Counties of Distinction by the Association County Commissioners of Georgia.

Memorial Health Meadows Hospital is part of the HCA Healthcare family, one of the nation's leading providers of healthcare services. HCA Healthcare is comprised of 185 hospitals and 2,000+ sites of care in 20 states and the United Kingdom. For more information visit www.memorialhealthmeadows.com.
